Academic Year 2019/2020 – Semester II

Assignment 02

COSC 32553 – Web & Internet Technology

Create a personal website using HTML, CSS and JavaScript with a minimum of three pages along with the content which is mentioned below.

Home Page

- Cover Image/Video
- A basic greeting, telling people what site they are on and what they can expect from it.
- Clear navigation so visitors can find the pages they are interested in viewing.

About Page

- About yourself
- Determining your goals
- Personal approach to your work
- Achievements
- Talents

Contact Page

- In case a visitor to your site wants to reach out you.

- Include a form to fill for the visitors (Note: Require form validations)
- Links to your social media and other websites you're affiliated with.

You can refer personal websites available and alter the tabs and its contents as per your choice other than the mentioned above.

Submit on or before 06th of March 2022
